County School Board Meets

As was announced in these columns last week, the County Board of Education met at the court house last Monday, April 26, for the purpose of electing teachers for the schools for next year. Teachers were elected as far as it was possible, there being numerous schools for which there were no applicants. The members of the Board and the County Superintendent will set about to find teachers for these places at the earliest date possible. Indications are that the shortage of teachers will be just as great as it was last year and local boards and communities are urged to find teachers if possible and bring them to the attention of members of the Board and the Superintendent.

Not more than half the positions in the county were filled at Monday's meeting and another meeting will be held on May 11, Tuesday, for the purpose of completing the lists.

All salaries in the county were raised about 25 per cent over what they have been in the past, a few having been raised last year as the only means of filling existing vacancies, not being raised this year. The minimum salary of the teachers of the county for next year was fixed at \$50.00, while first assistants in two and three teacher schools get \$50 to \$60, owing to training and experience. With a full nine month term which this county has, these salaries make the annual pay of teachers of this county better than any other rural county in this part of the state.

Never before has the Board had as many applications for increases in salary, increases above what it had fixed at its previous meeting and for which funds were provided by the court at its March term. Most of these applications had to be denied because they would make salaries unequal for the different schools doing the same character work.

The matter of paying teachers who take the six weeks course at the Normal Summer school \$5 per month additional was discussed and it was voted that such allowance could not be granted after the 25 per cent advance in salaries.

Fayette County Bank

Somerville, Tenn., April 22, 1920
To Our Friends and Customers:
We are pleased to announce that, in view of frequent successful bank burglaries and the theft of so many U. S. Bonds and valuables, we have taken out additional burglary insurance covering the bonds, valuables, and securities of our customers, which may be deposited in our safe deposit vaults.

Prof. J. H. Forbis High School Principal

At a meeting of the Fayette County High School Board held in this city last week Prof. J. H. Forbis of Smithville, Georgia, was elected Principal of the Fayette County High School for next year, his term of service to begin July 1, when he will begin plans for the next scholastic year.

Prof. Forbis is a mature and experienced teacher and school manager, having been City Superintendent and Principal of some of the leading schools of North Carolina and Georgia for the past fifteen years. He is a graduate of Davidson College, North Carolina, and presented to the board as strong a lot of testimonials as the board ever saw. He is forty years of age and has the reputation of being one of the best school-builders to be found in the whole country, and he was selected from a long list of applicants for the position.

The Board feels that it is fortunate in securing the services of Prof. Forbis and asks the co-operation of the public and the patrons of the school to make next year the best in its history.

Prof. Burrus Matthews who has served the past two years as Principal was not an applicant for re-election.

Other members of the faculty were not elected but will be at a very early date, there being at the date of the election no applicants for two places which are to be filled in the High School faculty, the several applications have been received since then.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials free.

Sold by all Druggists.

Do Not Burn Off Vegetation

On account of so much rain, the farm lands in Tennessee will not be broken until late in the season this year. In view of this the stalks, and other vegetation may not have time to decay and may be troublesome in cultivating the crop, but this is no argument in favor of turning the stalks according to specialists of the Division of Extension. They should, instead, be cut well with the disk harrow and turned under. If properly cut and turned under they will not cause enough trouble to warrant burning. All vegetation turned into the soil helps keep up the fertility.

To Cotton Farmers

On Monday of this week the writer was in Memphis looking after some cotton that has been there from one to five months.

This cotton is with Factors to be sold, as they had not sold very much I had thought for some time I would go down and take the matter up with different buyers.

While there Monday I wish that every farmer of Fayette County had been with me, I would walk into an office and ask for the buyer, we would exchange a few words regarding the weather etc. and I would then ask him if I could interest them in some cotton; the first thing they would ask me was "Where was your Cotton raised?" of course I answered near Somerville, the buyer would begin shaking his head saying the cotton raised around Somerville was so short that they could not use it.

I was turned down by seven buyers while there.

Of course sometimes they buy this short cotton in a lot where there is some staple (That is the way most of our short cotton goes, the Factors put out a lot of cotton on the tables, say fifty bales, and in this they will put in a few bales of the short cotton and as a result they dispose of some of it.

It is not because I have planting seed for sale that I write this. I could not begin to supply the people with the few thousand pounds. (As a matter of fact I only have five hundred pounds left.) I say this because I have bought cotton here and have offered it in Memphis and at present all the cotton that is left is the short variety, the better staple having been sold at a nice profit some time ago.

If you will plant some of the Big Boll Cotton and quit the half and half you will see these Memphis buyers represented in Somerville and you will get more money for your cotton, because there is a demand for inch staple and better, there is no demand for the half and half and other short varieties. Some of you will say "Well Stanton buys half and half and sells it."

Well they did for a while but I know it to be a fact and can verify same (some of the Stanton buyers at one time were taken out of the market by the Memphis buyers because they were loading up on the Somerville cotton.

Go to Memphis try to sell short cotton see what they will offer? They will not make you an offer.

But if you go to a buyer in Memphis and say "I have five bales of one inch cotton or better, they will at once say what do you want for it? And the result is you get together and you will receive a good price for this staple.

Now think this over and if you want to see buyers thick on the street of Somerville this fall plant better cotton. I will pay more for it and every one else will who buys cotton.

YOURS FOR BETTER STAPLE

The Falcon gives room to the above communication and is glad to have it, and it must be some truth in the statement as to the length of staple of the cotton in this section. It is short, but it has always found a ready market until the past season when there was so much injured and stained cotton. A factor recently told us that the difference in staple of the cotton here and elsewhere should make a difference of prices of one to two cents per pound, while dozens of cases can be found where differences in prices of the same bale here and at other markets ran much higher per pound the past season.

Short staple has its effects, we have no doubt, but that is just one of the causes for the present situation.—Ed.

How is Your Complexion?

A woman should grow more beautiful as she grows older and she will with due regard to baths, diet and exercise, and by keeping her liver and bowels in good working order. If you are haggard and yellow, your eyes losing their lustre and whites becoming yellowish, your flesh flabby, it may be due to indigestion or to a sluggish liver. Chamberlain's Tablets correct these disorders.

Card of Thanks

I want to thank the public for the liberal contribution to the Cemetery Association and the cordial manner in which I was received. Cash collections have been \$169.85 to date with some other promises.

MRS. M. B. HORNOR

Falcon Ads Bring Results.

Farris-Hudson

A quiet wedding was solemnized Wednesday evening April 28th at 8:30 o'clock at the home of Mr. and Mrs. James Carrol Farris when they gave in marriage their daughter, Virginia, to Mr. Wilkie Andrew Hudson, of Malesus, Tennessee. The Rev. E. A. Tucker officiated, using the ring ceremony.

The bride was gown in a becoming model of navy blue georgette with which she wore a picture hat of black lace trimmed with imported flowers and carried a shower bouquet of brides roses and valley lilies.

Miss Vennie Vedin of Malesus, Tennessee, charmingly rendered Mendelssohn's Wedding March and softly played Trameri during the ceremony.

Mr. and Mrs. Hudson left on the 12:30 train for Jackson, Tennessee. The bride traveling in a tailored suit of blue tricotine with accessories in harmony.

Among the out of town guests were, Mr. and Mrs. James Gordon Richardson, Miss Geneva Albright of Memphis, Tennessee, Miss Vennie Vadin of Malesus, Tennessee, and Mr. Mahon White of Jackson, Tennessee. "C"

SURGEONS agree that in cases of Cuts, Burns, Bruises, and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Sold by Price Drug Co.

Dr. B. L. Branch Dies

Dr. Ben L. Branch, an old resident and prominent physician of Collierville, Tenn., died suddenly at his home last night shortly after 9 o'clock according to messages received by relatives in Memphis. Dr. Branch was stricken suddenly just after he had finished supper. He had apparently been in his usual health during the day and, at the supper table his wife had no intimation that anything was wrong.

Dr. Branch was 64 years old at the time of his death.

He is survived by his wife, and by two brothers, T. T. Branch of Memphis and H. R. Branch of Maury City, Tenn., and by two sisters, Mrs. J. S. Speed of Memphis and Mrs. N. M. Foster of Johnson Grove, Tenn.

Funeral arrangements had not been completed last night.—Commercial Appeal.

"OH, LET'S DON'T"

People With Thin, Pale Blood Are Listless and Want To Do Little

MORE RED BLOOD CELLS NEEDED

Take Pepto-Mangan, Famous Tonic, and say "Let's Go," instead of "Let's Don't"

When normally healthy, ambitious people begin to lack energy and tire easily—when they are quickly discouraged and low in vitality, it usually means their blood has grown weak.

Such people are called anemic, or "run-down." Build up the blood and you build up the health and spirits. Pepto-Mangan is a pleasant-tasting red blood builder and it contains exactly the elements which poor, pale blood needs to become rich, red blood.

Red blood means rosy cheeks, bright eyes, a clear brain, a firm step. Pepto-Mangan has placed thousands of people who needed building up in the full-blooded, energetic, vigorous class. It changes the "let's don't" attitude to a "let's go" attitude. Recommended by physician's for thirty years and sold all over the world.

Pepto-Mangan is sold in both liquid and tablet form. Both contain the same medicinal ingredients.

Buy Pepto-Mangan at your druggist's. Be sure the name Gude's is on the package. Without "Gude's" it is not Pepto-Mangan.—A. V.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

Publication Notice

In the county court of Fayette County, Tennessee, at Somerville:

Cypress Creek Drainage District of Fayette and Shelby Counties, Tennessee.

Notice is hereby given to all persons, firms and corporations, concerned as owners, lien holders, incumbrancers, incumbrances, mortgagees, occupants, or in any other way interested, whether residents of the State of Tennessee, or non-residents of this State, of the hearing on the 19th day of May 1920, before the county court of Fayette County, Tennessee, at the court-house in Somerville, Tennessee, of the petition on file in this proceeding, and of the report of the engineer of the preliminary survey, profiles and all exhibits to said report, for the purpose of determining whether said drainage district and other improvements set forth in said petition and proceedings shall be established and taking all necessary steps and proceedings to establish the same as provided by law, the lands embraced in said drainage district being all the lands in Cypress Creek Bottom on both sides of said creek subject to overflow from a point on the lands of L. T. Meehan in Fayette county, Tennessee to the point where Cypress Creek intersects the north right of way of the Louisville and Nashville Railroad, said lands being partly in Fayette and partly in Shelby Counties, Tennessee, and more particularly set out and described in the report, maps, blue-prints, drawings and profiles of the engineer, said petition on file herein and all proceedings herein being hereby referred to for further information as to the purpose of said hearing.

It is further ordered that this notice be published for two consecutive weeks in the Fayette Falcon, a news paper published in Somerville, Fayette County, Tennessee, and for two consecutive weeks in the Memphis Press, a newspaper published in Memphis Shelby County, Tennessee.

Done by order of the court, this 26th day of April 1920.

C. W. CRAWFORD,
Clerk of the county court of Fayette County, Tennessee.

Are You Happy?

To be happy you must be well. If you are frequently troubled with constipation and indigestion you cannot be altogether happy. Take Chamberlain's Tablets to correct these disorders. They are prompt and effectual, easy to take.

Wool Market Uncertain

From various reports it appears that there is a large carry-over of low grade wool from last year's clip due to the manufacturer preferring the finer grades. With such a carry-over, there is the impression that this year's clip will open on a lower basis and that the demand will not be as active as it was last year.

C. E. Brehm, Marketing Specialist, Division of Extension, University of Tennessee, states that such a condition adds difficulty of having a successful co-operative wool sale at a country point, as competition will no doubt be limited to the local buyers in the county. While this condition may not prevail at the time this year's clip is ready to market, it is probable that it will, according to Mr. Brehm, and he is of the opinion that it will be best not to attempt to hold sales where there is less than 5,000 pounds at one shipping point.

Bad breath, bitter taste, dizziness and a general "no account" feeling is a sure sign of a torpid liver. HERBINE is the medicine needed. It makes the liver active, vitalizes the blood, regulates the bowels and restores a fine feeling of energy and cheerfulness. Sold by Price Drug Company.

Intensive Truck Gardening Demonstrated

Miss Sidney Standifer, County Home Demonstration Agent in Union County, reports a very fine demonstration of intensive truck gardening by one of her co-operators, E. C. Britt.

In the spring of 1918 Mr. Britt turned under a heavy coat of stable manure on one thirteenth of an acre plot. The plot was planted in potatoes and resulted in a good crop. In November it was plowed, harrowed and set to onions. In the spring of 1919 manure from a pig pen was added and the ground plowed, and harrowed. Then 40 pounds of acid phosphate was added and the plot set to the cabbage. From this crop Mr. Britt realized \$30 and had enough cabbage to supply his family.

In turning in this report to the agent, Mr. Britt stated that his reason for making it was to stimulate interest in intensive truck gardening.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.
